ACCESS YES!

Access Yes! is a new program designed to improve sportsmen's access to private land or through private land to public land by compensating willing landowners who provide access. The program has been in development for several years and is modeled after successful access programs in other states. Ultimately, the goal is to provide access to 1,000,000+ acres of private land along with access through private land to thousands more acres of public land.

In 2004, **Access Yes!** is providing access to 200,000 acres of private land and access through private land to an additional 240,000 acres of public land.

Information including locations of properties currently in the program and forms for landowners who wish to apply for the program are available at all Idaho Fish and Game offices and on the Internet at:
<http://fishandgame.idaho.gov/hunting/access>

USE OF MOTORIZED VEHICLES RESTRICTED

Over the past two years, the Fish and Game Commission has implemented restrictions for motor vehicle use while hunting upland game and big game to address many sportsmen's concerns about off-road travel. The Commission has added more units in 2004 in response to public comments. The restricted units are 29, 30, 30A, 32, 32A, 36A, 37A, 45, 47, 48, 49, 50, 51, 52, 53, 56, 58, 59, 59A, 66, 70, 72 (during late season archery only), 73, 75, 77, and 78. **Motor vehicle use rules apply to upland game and upland game bird hunting until the end of bird hunting season in that unit.**

For the units listed above, please refer to the Big Game Rules brochure for a complete unit description.

The rule is found at IDAPA 13.01.08.411. The rule reads:

411. MOTORIZED VEHICLE USE RESTRICTIONS.

The use of motorized vehicles by hunters as an aid to hunting big game, upland game, and upland game birds is restricted in certain areas. This use restriction is in addition to all the federal, state and local laws, rules, regulations, ordinances and orders; including, but not limited to, any motorized vehicle licensing, registration, and permitting requirements and traffic laws. Hunters must comply with all motorized vehicle limits or prohibitions instituted by the landowner or land manager. Also, this use restriction rule is not an exception from, and is in addition to, the statutory prohibition against hunting from or by the use of any motorized vehicle set forth in Idaho Code Section 36-1101 (b)(1).

01. Use Restriction. In designating areas and hunts, hunters may only use motorized vehicles on established roadways which are open to motorized traffic and capable of being traveled by full-sized automobiles. Any other use by hunters is prohibited. All off-road use by hunters is prohibited.

02. Exceptions. This use restriction rule shall not apply to the following permissible motorized vehicle uses:

- a. Holders of a valid Handicapped Persons Motor Vehicle Hunting Permit may use a motorized vehicle as allowed by the land owner or manager.
- b. Hunters may use a motorized vehicle to retrieve downed game if such travel is allowed by the land owner or manager.
- c. Hunter may use a motorized vehicle to pack camping equipment in or out if such travel is allowed by the land owner or manager; however, hunters shall not hunt while packing camping equipment.
- d. Private landowners, their authorized agents and persons with written landowner permission may use motorized vehicle on their private land; however, they may not hunt from or by the use of any motorized vehicle as prohibited by Idaho Code Section 36-1101(b)(1).

03. Restricted Areas and Hunts. This motorized vehicle use restriction shall apply to identified areas and hunts in all Big Game Management Units. The hunts and areas with a motorized vehicle use restriction are identified in the Commission's Big Game Season Proclamation, which is published in a brochure available at department offices and license vendors.

04. Defined Terms

- a. A full-sized automobile shall be defined as any motorized vehicle with a gross weight in excess of one thousand five hundred (1,500) pounds.
- b. An established roadway shall be defined as any road that is established, built, maintained, approved or designated by any governmental entity or private landowners for the purpose or travel by full-sized automobiles. An established roadway shows evidence of repeated use by full-sized automobiles, and may include a traveled way of natural earth with depressed wheel tracks and little or no vegetation in the wheel tracks.
- c. A hunter shall be defined as a person engaged in the activity of hunting as defined in Idaho Code Section 36-202(j).

GENERAL INFORMATION

LICENSE REQUIREMENTS

No person shall hunt any wildlife without having in possession the appropriate hunting license and validations. Children must be at least 12 years of age to purchase a hunting license EXCEPT an 11-year-old may purchase a hunting license to apply for a controlled hunt permit provided the license is not used to hunt until the person reaches 12 years of age. The new hunter must have taken hunter education prior to purchasing a license.

A 10-year-old who has passed hunter education may purchase a youth small game license and a 12-year-old nonresident who has passed hunter education may purchase a "junior mentored hunting license." These licenses may be used only when accompanied in the field by the holder of a valid adult Idaho hunting license who is close enough to be withing normal conversation or hearing range without shouting or the aid of electronic devices.

HUNTER EDUCATION

Idaho requires everyone born on or after January 1, 1975, to complete a state-approved hunter education course before they can buy a hunting license. Idaho's hunter education classes require a minimum of 12 hours of classroom instruction, plus a written exam, range shooting, and field exercise. The average class is 20 hours long and is conducted over a three-week period. The curriculum includes training in firearms safety, outdoor ethics, survival, wildlife management, etc., to start new hunters off on the right foot. In order to assure enough classes will be available, prospective hunters born on or after January 1, 1975, must preregister by calling the nearest regional IDFG office (page 1).

- Those who plan to participate in fall hunts must preregister at a regional office if they expect to obtain the necessary training, buy a license, and be qualified to hunt in fall seasons. Those who call after July are not likely to find a class available.
- On-line hunter education classes are now available for hunters 14 and older. Go to the Fish and Game website at www.fishandgame.idaho.gov for more information.

HUNTING OF PREDATORY & UNPROTECTED ANIMALS

Some animals are classified as "predators" or as "unprotected" and can be hunted and taken all year. Animals classified as predators in Idaho include coyotes, jackrabbits, skunks, weasels, and starling. The most frequently hunted unprotected animals include marmots, fox squirrels, porcupines and Columbian ground squirrels, English sparrows and feral pigeons. These species may be taken in any amounts and at any time by holders of the appropriate valid Idaho hunting, trapping or combination hunting license, provided such taking is not in violation of state, county, or city laws, ordinances or regulations.

PROTECTED NONGAME WILDLIFE, SPECIES OF SPECIAL CONCERN, THREATENED OR ENDANGERED SPECIES, UNPROTECTED BIRDS

Special classifications for some animals extend extra protection to those species. These animals cannot be hunted, taken or possessed. Threatened or endangered wildlife, including caribou, Canada lynx, gray wolf, grizzly bear, Northern Idaho ground squirrel. Protected nongame wildlife include red (pine) squirrel, wolverine, chipmunks, rock squirrel, Wyoming ground squirrel (*nevadensis* subspecies only), golden-mantled ground squirrel, Merriam's ground squirrel, Piute ground squirrel, pika, kit fox, northern flying squirrel, bats, Southern Idaho ground squirrel and migratory song birds. See pages 34 for ground squirrel information.

All birds in Idaho are protected EXCEPT starlings, English sparrows and feral pigeons. Protected nongame birds cannot be hunted, taken or possessed (including parts of birds, even if found dead). All hawks, owls, eagles and vultures are protected. Game birds may be taken only in accordance with established hunting rules.

See IDFG pamphlet for collecting, possession, and importing amphibians and reptiles.

ATTENTION HUNTERS: The 1998 Idaho Legislature passed the requirement that all applicants for licenses issued by the state, including hunting or fishing licenses, tags, permits and stamps, must give their social security number in order for a license, permit or stamp to be issued. The Idaho Privacy Law protects your social security number. Your social security number is considered confidential, will not be printed on your license and WILL NOT be given to any private person or organization.

WOUNDING AND RETRIEVING

No person shall wound or kill any upland game bird, upland game animal or furbearer without making a reasonable effort to retrieve it and reduce it to possession. Every upland game bird, upland game animal or furbearer wounded by hunting and reduced to possession shall be killed immediately and become a part of the daily bag limit.

IT IS UNLAWFUL

- To hunt on cultivated or posted private lands without permission. See Trespass Law, page 10.
- To hunt or take any wildlife without a valid hunting license on your person.
- To take any game without the proper tag or permit.
- To shoot from or across the traveled portion, shoulders, or embankments of any road maintained by any government entity.
- To hunt game from any motorized vehicle, EXCEPT for holders of a valid handicapped persons Motor Vehicle Hunting Permit. Also see page 7 (use of motorized vehicle) and see page 11 ("From boats . . .").
- To operate any vehicle in an area designated as closed for that specific vehicle type.
- To operate a motor vehicle in violation of area, trail or road restriction.
- To use aircraft to locate game and communicate location to persons on the ground, or to use any helicopter to transport hunters, gear or game except at established landing fields.
- To fail to stop and report at any game check station encountered on your route of travel, even if your hunting activity occurred outside the state of Idaho.
- To fail to produce wildlife in possession for inspection upon request of a conservation officer or other person authorized to enforce IDFG laws.
- To hunt any game species with the aid of artificial light (except raccoons, see Furbearer section, pages 28)
- To cause or allow the waste of meat from any game animal, except a mountain lion.
- To transfer any license, tag, or permit or use another's license, tag, or permit.
- To party hunt, or help fill another hunter's bag.
- To take more animals than the hunter has legal tags for that species.
- To destroy or disturb traps or remove any wildlife from traps belonging to others.
- To enter Idaho with livestock without a health certificate for transport and a brand inspection slip.
- To intentionally interfere with the lawful taking of wildlife or lawful predator control by another.

- To hunt any game animal/bird by means of baiting with grain, salt in any form (liquid or solid), or any other substance (not to include liquid scents) to constitute an attraction or enticement, with the exception of applicable rules for the black bear baiting permit.
- To possess or transport game or parts (including processed meat) taken by another person without having a proxy statement.

IDENTIFICATION OF SPECIES IN POSSESSION, TRANSPORTATION OR SHIPMENT

Any person in possession of or transporting harvested game that has been lawfully taken and reduced to possession must comply with the following requirements:

- No person shall transport for another, receive for cleaning, processing, or storage, or accept as a gift any harvested game unless it is accompanied by a written "proxy" statement signed by the taker. A blank proxy statement appears in this brochure on page 10; it must be filled out completely for the appropriate species to be valid. Migratory game birds accepted as a gift shall apply to the recipient's possession limit. Migratory game birds being temporarily possessed or transported for the taker, as provided above, shall not apply to the non-taker's possession limit.
- Any time big game is transported, a validated tag must be attached to the largest portion of the carcass. In addition, the taker must be in possession of the appropriate hunting license and permits. Any person transporting big game for another (including big game animal parts, processed meat, and/or gifts of big game that do not exceed the lawful possession limit) must be in possession of any applicable permits and all information from the proxy statement (see proxy form on page 10). The validated tag must remain attached to the carcass until the meat is processed. The validated tag must accompany the meat to the place of final storage or until final consumption.
- One fully-feathered wing or head must be left naturally attached to any dressed game bird (except turkey); the beard or leg must be left naturally attached to turkey carcasses. Naturally-attached parts are needed so enforcement and management personnel are able to identify the species and sex of the birds in possession or being transported.
- Any package or container in which game species are being transported by common carrier must have the name, address, and hunting license number of the shipper, the name and address of the consignee, and an accurate statement of the species and number of each contained in the package or container clearly and conspicuously marked on the outside.
- No person shall give another any game species to possess or transport unless they also give the transporter a written proxy statement.

STATE PARK RULES

Certain types of hunting are allowed on some state parks. Please contact the state park you are interested in visiting to determine hunting opportunity.

Protection of Wildlife: All molesting, injuring or killing of any wild creature is strictly prohibited, EXCEPT as provided by action of the Idaho State Parks and Recreation Board and the Idaho Fish and Game Commission.

Personal Safety: No person shall discharge firearms or any other projectile firing device, or otherwise purposefully or negligently endanger the life of any person or creature within any area in the State Parks and Recreation System. All firearms brought into a State Park must be unloaded, out of sight, or in a vehicle, EXCEPT when used for legal hunting, as authorized by the Director of the Department of Parks and Recreation and the Idaho Fish and Game Commission or for exhibition, authorized by the Director of Parks and Recreation.

INDIAN-OWNED LANDS AND NATIONAL WILDLIFE REFUGES

WARNING: Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing or trapping purposes (18 U.S. 1165).

Trapping on National Wildlife Refuges is under federal regulations by permit only, and steel shot may be required on certain refuges for some upland game species. Check with federal refuge manager.

HUNTERS: WATCH FOR TRAPS SET FOR FURBEARERS!

- Ask landowners if there are traps set on their land — and avoid them.
- If a hunting dog is accidentally caught in a trap, it should be removed carefully! Although usually not seriously harmed, a dog in a trap will be frightened and may bite. As gently as possible, cover the dog's head with a jacket, etc., and carefully remove the trap.

TRESPASS LAW

No person may enter private land to hunt, fish or trap without permission if the land is either cultivated or posted with "No Trespassing" signs or enrolled in the Conservation Reserve Program. Proper posting means either signs, 100 square inches of fluorescent orange paint or an entire fluorescent orange metal fence post every 660 feet around the property and at reasonable access points. It is unlawful for anyone to post public land that is not held under an exclusive control lease. Conviction of trespass on posted private property carries a mandatory one-year revocation of hunting/fishing/trapping licenses.

Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing, or trapping purposes.
